Attachments: Overbay registration form GWPC mtg July 9-11 2013.pdf; Overbay EPA abstract.docx; MDO BIO 7 9 2013.docx

Hello Ben and Brenda,

Attached you will find my registration form, abstract and bio for my presentation at the GWPC form on July 9th. I intend to stay for the entire 3 day conference, as it looks very interesting. I apologize for the delay, but I was awaiting final approval from the folks in DC to do the presentation.

Also, I have been unable to get our enforcement folks to inform me of whether they intend to accept your offer to participate, but I will give them your contact info to respond to directly, as I will be on vacation next week.

I look forward to seeing you on the 9th.

Enjoy the 4th of July.

Mike

Subject: RE: your messages

Hello Stewart! Thanks for getting back with us. Ron Bergman at EPA HQ has directed Michael Overbay of Region 6 to attend the event and cover some of the EPA perspectives. If you have information about the EPA Enforcement Initiative that can be communicated through Mr. Overbay, I hope you will work this him. His e-mail is included above.

THANKS!

Ben Grunewald

Ben,

We appreciate your invitation to appear at the July conference.

Unfortunately, EPA is not available to present on the National Enforcement Initiative at the July 9-11 event.

Thanks again for this invitation to present at the July meeting.

Regards,

-Andrew

Hello Andrew!

One of our GWPC folks ran across a reference to EPA Enforcement Initiative.. we believe related to oil & gas and/or unconventional O&G development. Would you know what this might be?

See attached agenda for a July 9- 11 event to take place in Grapevine, TX.

If you know about this and could speak about it, would you want to come to Dallas next month? ☺

THANKS!

Ben Grunewald

Thanks Jeanne – I was out yesterday and I had my assistance look at my computer desktop to discover that I have NOT pushed “send.”

I will see if any of the OW/OGWDW folks are planning to attend to cover the Diesel Guidance.

Would you have ANY idea who might have been involved in the EPA Enforcement Initiative (even if several years ago?

We will see you in St Louis in September!

Hi Ben,

As we discussed, I am able to talk about the study in the fall, but not July, as proposed below. I think that this email may have taken a long time to get through. Recommend you contact OW/OGWDW for a potential speaker on regulatory work. I am not aware of any new EPA enforcement initiatives. There was one that started several years ago, but it may be wrapping up.

Best,

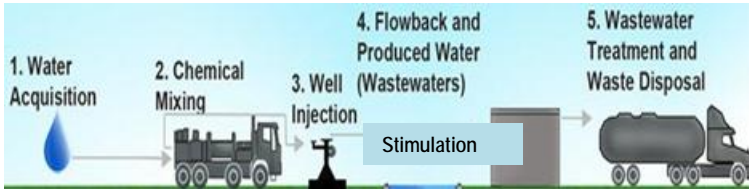

Jeanne

Subject: your messages

Hi Ben,

Sorry to have been out of touch. I've been catching up since my furlough. Just wanted to acknowledge that I got your notes and message. I'll plan on more complete reply this afternoon or tomorrow.

Thanks for your patience,

Jeanne
